

Covid-19 Implementation: New Procedures & Precautions

General Screening

- Prior to visit, all patients are screened for:
 - Confirmed diagnosis or contact with known/suspected Covid cases (past 14 days)
 - Recent travel to “hot-spot” areas (past 14 days)
 - Covid related Symptoms; including temperature check
 - If temperature is >100.3 patient will not be treated and will be advised to receive Covid19 testing
- Consent: All patients must read and sign a Covid19-specific informed consent; this is in addition to our usual informed consent

Sanitizing/Cleaning

- Hand sanitizer is available at the front desk and hand washing stations are located in the hallway; Bathrooms are also available for hand washing
- All high touch common-areas (e.g. bathrooms) are sanitized a minimum of 2x/day

Telemedicine Evaluations

- New patient: Initial intake and evaluation will be performed via Telehealth to discuss symptoms & determine treatment plan; If appropriate treatment will be scheduled
- Current Patients with “Allergies” & Other ‘conditions’ that may mimic Covid19
 - You may be asked to perform a telehealth visit for evaluation prior to treatment

Your Treatment Flow

- Physical Distancing: The entire clinic flow is designed to maintain a minimum of 6’ distance between all patients and staff
 - During Treatment, your practitioner will, at times, be closer than the 6’ distance
- Waiting Room: Patients will be asked to wait in their car until the treatment
 - On most Saturdays, patients (2 max) can use the waiting room
- Wash: Please wash your hands after you enter the clinic; see Sanitizing/Cleaning above
- Masks: Patients, staff and practitioners all must wear a mask
 - Patients must wear a cloth mask to cover the nose and mouth with >1 layer of fabric/material; If needed, the clinic will provide patients a mask
 - Practitioners must wear medical grade mask (i.e. surgical mask or N95) and follow [CDC guidance](#)
- Sanitizing: Treatment rooms are disinfected before and after each treatment, e.g. treatment table, shelves, door handles, and all high touch areas
- Checking out: Front Desk has implemented policies to maintain 6’ distancing between all patients and staff. Please note that you may be asked to wait in your car.
